

OUR LIQUID WORLD

**70% of the world is covered with water
369 million square miles of contiguous free flowing
water embraces the earth's coastlines**

From the prehistoric fishermen to James Cook's first exploration of the South Seas and to the 1902 establishment of the International Council for the Exploration of the Sea, people have been fascinated by the earth's oceans and seas.

Vela continues this exploration, fascination and source of enjoyment through our wine program; **our liquid world.**
